Work Experience

Infosys *System Engineer* Jul 2025 – Present
Intern Jan 2025 – Jun 2025

- Investigated and Resolved 200+ P2/P3 production incidents in retail order-processing systems within SLA, including root-cause analysis using CloudWatch Logs Insights for AWS-related issues.
- Contributed to a serverless data pipeline using S3, EventBridge, Step Functions, and Glue Crawlers for automated CSV ingestion and processing; also supported incidents involving DMS, CDC, FSx, and DataSync.
- Automated weekly reporting using Lambda, On-Prem database and SNS, eliminating manual effort and saving 20 hours per week.

Projects

Serverless URL Shortener March 2026

- Built a production-ready serverless URL shortener with global access, secure private hosting, scale-to-zero cost efficiency, and a clean 301 redirect flow.
- Designed an AWS-first architecture using React, private S3, CloudFront with OAC, API Gateway, Lambda (Python), and DynamoDB.
- Applied production engineering decisions including Lambda over EC2, DynamoDB over RDS, IAM least privilege, and private S3 with OAC.

Serverless Order Dispatch System June 2026

- Architected and implemented an event-driven order management system using AWS EventBridge, Lambda, SQS, DynamoDB, S3 to support scalable and reliable asynchronous order processing.
- Engineered AWS Lambda functions in Go using goroutines, wait groups, and context propagation to process orders concurrently and integrate with external services.
- Designed DynamoDB-backed idempotency controls and order state management mechanisms to prevent duplicate processing and ensure reliable execution.
- Created Alerts and deployed them in Jenkins for the peak readiness in python.

Education

2021 - 2025 B. Tech - Computer Science and Engineering, **SRM University AP** CGPA: **8.82/10**

Technical Skills

Languages	Python, Go, JavaScript, SQL, Shell scripting (Linux)
Frameworks	langgraph, langchain, node.js
Cloud & DevOps	AWS (EventBridge, Step Functions, Glue, Athena, S3, Lambda, DynamoDB, CloudFront, API Gateway, SQS, CloudWatch, IAM, DMS), Terraform, Docker, Git, Jenkins

Certifications

- AWS Certified Cloud Practitioner, 2025 – Validated foundational knowledge of AWS cloud services.
